Transfer Admission Requirements for the College of Engineering
Associate Dean for Academic Affairs

Students who meet either of the following may enter the College of Engineering at Colorado State University.

1. If you are transferring to CSU from another ABET (Accreditation Board for Engineering and Technology) engineering program you must be in good standing and have a cumulative GPA of at least 2.5 based on a 4.0 scale.

2. If you are transferring from a non-ABET accredited program at another institution OR you are transferring internally from another major at CSU, you must meet All of the following:

   a. GPA requirement: ≥ 2.75 from ALL previous community college/college/university coursework; AND
   b. a grade of “B” or better in an approved course in engineering-level Calculus (equivalent to MATH 160 or above); AND
   c. a grade of “B” or better in an approved course in an engineering-level Chemistry or Physics course (equivalent to CHEM 111 or above OR PH 141 or above); AND
   d. a “C” or better in the most recent course taken in each of the above required subject areas.

Additionally, Students who were admitted to Colorado State University in any major, as a first time freshmen must complete the above requirements by the time they have earned 45 credits at Colorado State University. Students who were admitted to Colorado State University as transfer students in a college outside of the College of Engineering or as an intra-university major (seeking engineering) must complete the above requirements by the time they have earned 30 credits at Colorado State.
